HRG to showcase latest products at Business Travel Show

Source: BTB Travel

[Extract]

HRG's travel alerts service, powered by global security specialists red24, uses a live feed to inform clients, travellers and travel managers of the very latest travel and security-related incidents worldwide via email and SMS text messaging. The system may be used in conjunction with the company's people-tracking solution, HRG Travel Watch, and plans are in place to integrate the service into HRG Online and the HRG Portal to provide a seamless online experience for travellers and travel managers/bookers.
