

FOR IMMEDIATE RELEASE

29 JULY 2004

ARC RISK MANAGEMENT GROUP PLC

ARC SIGNS 3-YEAR AGREEMENT WITH AIG INTERNATIONAL SERVICES

ARC Risk Management Group Plc ("ARC" or "the Company"), the AIM-listed Global security company, is pleased to announce that it has finalised a three year agreement with AIG International Services ("AIGIS") of Houston, Texas, a member company of American International Group, Inc., the world's leading insurance and financial services organisation, to distribute the red²⁴™ Alert service worldwide.

The distribution will initially focus on the Asia Pacific region, beginning with Japan. ARC and AIGIS have finalised all the legal, compliance and marketing issues, and are developing a 24/7 Japanese web-based and telephone service, with the goal of formally launching the service in Japan within the next month.

In order to provide this high level 24 hour dedicated Japanese security service, ARC has recruited a number of Japanese nationals who are based at ARC's CRM Centre in Cape Town. They will deal directly with clients' enquiries, and enhance and continuously update the new dedicated Japanese language website.

The red²⁴™ Alert service provides the full trademarked red²⁴™ service of information and advice on security issues, enhanced via the inclusion of a response service, providing 24 hr assistance in potentially life-threatening situations around the world. red²⁴™ Alert covers incidences such as, stalking, false detainment, civil and political unrest and kidnap and terror threats. Given the global spread of ARC's specialists, red²⁴™ Alert is able to provide worldwide physical assistance within 24hrs.

Commenting, ARC's Chief Executive, Rob Whiting said: "We are delighted to add AIGIS to our growing list of international blue chip clients."

Notes to Editors**ARC Risk Management Group Plc:**

ARC Risk Management Group Plc is a British company, listed on the Alternative Investment Market (AIM) of the London Stock Exchange, providing security risk management services on a worldwide basis. ARC's range of products are targeted at both individuals and companies and offer banks, insurance companies, multi-national companies and government agencies a highly innovative and proven solution to the security related issues they and their customers are currently facing.

ARC has a team of intelligence analysts complimented by security professionals who provide, support and maintain the information 24 hours a day, 365 days a year. The service currently covers over 130 countries.

ARC provides a pro-active and crisis management response service to the insurance industry for the provision of 24 hour world-wide pre-incident and response services covering Product contamination and recall and Kidnap & Ransom. It complements this with specialist work covering a broad spectrum of special risks such as sabotage and terrorism, crisis management, security audits and other related consultancy services to a wide range of clients.

ARC provides formal training for security management personnel worldwide. The training courses (provided either "In-House" or via "Open Courses" in the UK) cover a broad range of spectrum such as bomb threats, business travel, IT, fraud, crisis management, kidnap and ransom, investigations, strategic security management and asset protections. It is now acknowledged as the foremost UK based international security management training operation.
